

AGRO4AGRI

FOSTERING THE ADVANCED USE OF AGROCHEMICALS
FOR A SUSTAINABLE AGRICULTURE

Inorganic nanomaterial
and biobased delivery
systems for controlled and
slow release of fertilisers

Low-risk active substances
for operators and the
environment, which also allow
for a reduction in wash-out

RNA interference-based
biopesticide for the
selective nematode
pests control

AGRO4AGRI provides farmers with effective
tools that improve crop productivity while
addressing key environmental challenges in
the European agricultural sector
